

# Bee I Bike

## About the Bee I Bike System:

Is a strong and reliable commercial-grade stationary bike enhanced with pedal-to-play gamercize technology. This product uses magnetic resistance technology and can be used with any XBOX game to create the best workout experience. The resistance and program settings will keep you working while the adjustable and safety features will keep you comfortable. Using feedback information from the console screen, all rides can be recorded and tracked.

This bike features several programs and resistance settings to provide the correct workout intensity to meet your goals. While you are pedaling, the built in heart rate monitor is able to give you feedback to ensure you are staying in the ideal heart rate zone. Because of the adjustable seat and seat back pad, users of almost any height can pedal and play with ease and comfort.
